Sub: Regularisation of Non Domestic construction connection (temporary sanitary connection for new / reconstruction / additional) upon completion of the Building with in 2 years.

BWSSB has 11,25,000 Nos. of Water and Sanitary connection with permanent RR Nos. for which Monthly bills are being collected from the consumers. In Bangalore at several places many new building, demolishing / re-construction of building is being taken up. At the time of construction / re-construction of building the owner of that premises obtains temporary sanitary connections for labourers. This type of connection is categorized under the Non Domestic construction category in Sajjala. At present in BWSSB 13800 no of ND construction connections has been sanctioned over a period.

Of late it has been noticed that even after many years of completion of the building the owner has not come forward to regularize this ND construction (sanitary only) connection due to availability of borewell in their premises & in order avoid paying the prorata and other charges to Board. Due to which there is loss of revenue to the Board.

The Board in its meeting held on 07.01.2025 has accorded approval to take the following actions.

- 1) The owner has to regularize the temporary sanitary connection (domestic / non-domestic connection) within a stipulated period of 2 years from the date of sanction of temporary sanitary connection by applying through online by making necessary payments as per Board norms.
- 2) In case owner fails to regularise the temporary sanitary connection (domestic / non-domestic construction) within a period of 2 years from the date of sanction of temporary sanitary connection in such cases a penalty of Rs.2500/- per month per house / per flat / per floor in case of duplex or triplex house has to be levied in their monthly bills until the connection is regularized as per board norms.

3) The above condition shall be applicable in case of additional construction in the existing building having BWSSB connection and for new construction / reconstruction of the building.
